

We Push

RZA

All that you see is not what you see
There's more to the story
This shit ain't easy
We push (Push)
We push (Push)

Take it from me
The Shaolin M.C.
We get all the money
But we get no sleep
We push (Push)
We push (Push)

One nation under god
Indivisible
Approached wit a force
That seems invisible

We drink gold nectar and make a miracle
The keeper of the gate of your heart
Is Bobby Digital

Nigga mortis, y'all stuck wit' nigga mortis
It's like you got walking talkin' rigor mortis
Headus - corpus
We gotta bigger office
A Sunseeker in the ocean chasin' swordfish

We study ants and plants
And given grants to kids
And then a chance to live inside a mansion
And make it better so when they go into the meta
They ain't gotta worry about that food clothes and shelter

Alpha, sigma, delta
Gama, phi, beta
We build our mind and bodies
To make our lives greater
I multiply a particle, molecules, and plasma
So from my simulation, real life is mastered

All that you see is not what you see
There's more to the story
This shit ain't easy
We push (Push)
We push (Push)

Take it from me
The Shaolin M.C
We get all the money
But we get no sleep
We push (Push)
We push (Push)

Yo back on the stump
Trying to avoid these bumps
Tryna get our crew outta the slumps

Get our family outta the dump
These wild boys runnin' round here like they Trumps
They pockets gettin' fat like the klumps
Tryna take us all back to the junk
All conspiracies, histories, has been debunked
Like when she found that cat pepe, was only a skunk
I kept AK's in my trunk
Diamond chips in my fronts
Crack capsules in my jaw
My face looked like the mumps
Icy links on the neck
You respect how we flaunt
Brother Rae kept a closet full of Air Force 1's
How does it feel to have everything you want?
Except the thing you really want
We grew up to be kings
They thought we would only be pawn's

All that you see is not what you see
There's more to the story
This shit ain't easy
We push (Push)
We push (Push)

Take it from me
The Shaolin M.C.
We get all the money
But we get no sleep
We push (Push)
We push (Push)
