Loving you is not just luck or illusion  
It's in the make-up of our DNA  
It's not by chance we make the perfect solution  
Don't fight it baby, you know that it's just destiny's way

Baby lovin' you  
Comes easily to me  
It's what I'm living for  
It's all in the chemistry  
Baby lovin' you  
Is how it's meant to be  
It's something that is oh so natural to me

We got the answers but there's no explanation  
We got each other baby come what may  
It's in the science, it's genetically proven  
Cos when you touch the reaction it just blows me away

Baby lovin' you  
Comes easily to me  
It's what I'm living for  
It's all in the chemistry  
Baby lovin' you  
Is how it's meant to be  
It's something that is oh so natural to me

Turn off the light, lay your head next to mine  
Take it slowly, a step at a time  
C'mon get close, closer to me  
It's oh so natural, it's oh so easy to see
