

## **Fuck The Middle East**

**S.O.D.**

Fuck the middle east  
There's too many problems  
They just get in the way  
We sure could live without them  
They hijack our planes  
They raise our oil prices  
We'll kill them all and have a ball  
And end their fuckin' crisis  
BEIRUT, LEBANON-Won't exist once we're done  
LIBYA, IRAN-We'll flush the bastards down the can  
SYRIANS and SHIITES-Crush their faces with our might  
Then Israel and Egypt can live in peace without these dicks
