

## Clear Out Time

S-X

Yeah  
And it's clear out time  
Gotta exorcise my mind  
For the demons we might find  
My little piece of mind, ooh

Lies, they don't understand I've tried  
If I do this one more time  
When I take the devil's pride, ooh  
Die and I'm asking myself why  
It's like all those times I've cried  
Are for hereby can't abide, ooh

Save me, I'm falling out lately I'm calling  
But don't make me call again, yeah, yeah  
So into, don't let me fall off and forget me  
Before my line is dead, yeah

'Cause it's clear out time  
Gotta exorcise my mind  
For the demons we might find  
My little piece of mind  
'Cause it's clearer, time  
I know what I don't like  
Type of ends you can't revive  
My little piece of mine, ooh

Talk, therapy, I just go forth  
Energies up on my thoughts  
Might disappear inside my walls, ooh  
Mind and all their holes inside  
The truth behind the lies  
You won't like what you find

Save me, I'm falling out lately I'm calling  
But don't make me call again, yeah, yeah  
So into, don't let me fall off and forget me  
Before my line is dead, yeah

'Cause it's clear out time  
Gotta exorcise my mind  
For the demons we might find  
My little piece of mind  
'Cause it's clearer, time  
I know what I don't like  
Type of ends you can't revive  
My little piece of mine, ooh
