

## Come Alive

S-X

Talk to me crazy I need to be hearing that, oh-oh-oooh  
Had you and lost you and right now I need you back, uh-uh-uh  
I need June 2017 back in my life, doing a ride, nothing touching the fight  
That was the time it was right, we would lie down and look at the sky, all the  
stars are at night

Yeah I know, through my eyes  
Yeah I see, I was lost  
On your ride, but I'm here now, oh-oh-oooh  
When I tainted on you and your vibe  
I'm wanting you here right now by my side  
When I'm with you yeah, I come alive  
Crazy how inside feels just like outside

Here we go, let me go, let me go  
Here we go, let me go, let me go

I'm busy blocking out pain with no remedy (With no remedy, with no remedy)  
When I'm ready to say it, you're not hearing me, uh-uh-uh  
(You're not hearing me, you're not hearing me)  
I know that you're in a different place right now  
And you're forgetting me, but don't forget how  
I'm levels above all the shit that we did  
Never would I let go of all of this

Yeah I know, through my eyes  
Yeah I see, I was lost  
On your ride, but I'm here now, oh oh  
When I tainted on you and your vibe  
I'm wanting you here right now by my side  
When I'm with you yeah, I come alive  
Crazy how inside feels just like outside

Here we go, let me go, let me go  
Here we go, let me go, let me go

I don't wanna fuck with you, I don't wanna lie  
It's more than something though, it's more than a fight  
I don't wanna lie, no more  
I don't wanna lie  
You're not into the lies, no you cannot deny  
I don't wanna fuck with you, I don't wanna lie  
It's more than something though, it's more than a fight  
I don't wanna lie, no more  
I don't wanna lie  
You're not into the lies, no you cannot deny

Yeah I know, through my eyes  
Yeah I see, I was lost  
On your ride, but I'm here now, oh oh  
When I tainted on you and your vibe  
I'm wanting you here right now by my side  
When I'm with you yeah, I come alive  
Crazy how inside feels just like outside

Here we go, let me go, let me go  
Here we go, let me go, let me go

When I'm with you yeah, I come alive
