

## Dangerous

S-X

When people try to put me down  
And I don't wanna be around  
I just wanna walk alone  
She don't want me on my own  
Because I'm dangerous  
That's when I'm dangerous  
I'm losing the war with my thoughts  
Lock the door  
What I saw is I'm too damn dangerous

And I'm thinking 'bout suicide  
Doors on my whip  
Fuck it baby you can drive  
I don't care where we going nah you decide  
But this the last time that Imma let you  
Cause I still think about the shit that you did to me  
Funny how I am the one who's gotta live with it  
But I'm over it now look at what I did with it  
Telling stories all about you and they listening  
If you could look into my mind yeah  
It's crazy what you'd find there  
I could've ruined your life, yeah  
I should've used my time here  
A little more wiser  
I guess I'll never know why, yeah  
But when I let go  
Will you let go?  
I know you won't

When people try to put me down  
And I don't wanna be around  
I just wanna walk alone  
She don't want me on my own  
Because I'm dangerous  
That's when I'm dangerous  
I'm losing the war with my thoughts  
Lock the door  
What I saw is I'm too damn dangerous

And you don't know what I been through  
My thoughts are unusual  
Thought I was in love with you  
But I guess I'll go again, yeah  
Cause I ain't got the time for the fake shit, no way  
She's always on my mind, Imma take it slowly  
I cannot let my emotions take over  
But I let 'em go again, yeah  
And there's something about you I'm watching lately  
If I'm honest I'm doubting that Imma make it out this race  
I don't feel safe  
I hate to wait  
And I'm done chasing  
Out the hate  
I'm out of places  
I can take my mind to get off you

When people try to put me down

And I don't wanna be around  
I just wanna walk alone  
She don't want me on my own  
Because I'm dangerous  
That's when I'm dangerous  
I'm losing the war with my thoughts  
Lock the door  
What I saw is I'm too damn dangerous

Yeah, you know it's a lie  
I'm noticing why  
I hold it inside  
Cause I know how I'll react  
And only you know how I mean that  
Oh yeah
