

Everytime

S-X

Everytime I see you in the street yeah
I know you see me yeah
Don't know what we'd be yeah
If it wasn't for me yeah
But now we are nothing
You are so haunting
I can show you one thing
You won't find no love in

Like I gave you
I'm the realest one
I talk to no girls
But I'm feelin' one
Get up in her too
I'm not hearin' one
You won't give me your heart
I guess I'm stealin' one
Yeah back when I told you
That you were the one
I still mean it now
You just bein' you
And I told you things
But you don't like the truth
Insecurities, yeah, you won't overcome

And I get it, I get it
I'm stubborn I won't change
It's just cause I don't even know how
I got told that at a young age
I'm confusing things up
No way, no point, no drink up
To let go of the bad times
That's just not how I fix up
I know someone else has got you
Sorry for what I put you through
I am always thinkin' 'bout you
But does he do that for you?

Everytime I see you in the street yeah
I know you see me yeah
Don't know what we'd be yeah
If it wasn't for me yeah
But now we are nothing
You are so haunting
I can show you one thing
You won't find no love in

Like I gave you
If I was to leave yeah
You took the other street yeah
Oh so necessary
When you think of me
It's not what you tell me
Hide truth because you're scared, yeah
Scared of what could be
Fuck this shit I'm leavin' this
I know I can do better

I used to believe in this
Cannot believe I let her
Get in my head and switch things up

Yeah we been here before
But are you ready for it again, yeah

And I hate the way
That we communicate
I know there's still a chance
But I'll wait till it's too late, yeah
I know someone else has got you
Sorry for what I put you through
I am always thinkin' 'bout you
But does he do that for you?

Everytime I see you in the street yeah
I know you see me yeah
Don't know what we'd be yeah
If it wasn't for me yeah
But now we are nothing
You are so haunting
I can show you one thing
You won't find no love in

Like I gave you...
Everytime I...
Like I gave you...
Everytime I...
Like I gave you...
Everytime I...
Like I gave you...
Everytime I...
