Feels

S-X

Girl, you know you're special to me
I can't let you down I never meant to, nah
All the things we went through told you I'd protect you
I know at times it gets you down
I just wanna let you know that I miss you
Yeah, it's hard to let go now
Really I dont want to accept that I just lost you
And I'm in my feels now, yeah

That's just the motion, I'm still hopeful
Don't act different, babe, I know you
Though our situations frozen
Yeah, yeah, yeah, ay
Round in circles we were going
We ain't perfect and we know it
But for me girl you were chosen
So there ain't no way I'm losing my baby
Although we're far away, yeah, yeah
Nothing will stop me
I'll go the long way
I know we can start again

Cause girl, you know you're special to me
I can't let you down I never meant to, nah
All the things we went through told you I'd protect you
I know at times it gets you down
I just wanna let you know that I miss you
Yeah, it's hard to let go now
Really I dont want to accept that I just lost you
And I'm in my feels now, yeah
