

# For So Long

S-X

I could only stay here for so long yeah  
Love was really what kept me holding on  
Making more problems while we're solving some yeah  
I know I cannot be the only one  
Who needs to know what time alone feels like but loneliness ain  
't there  
I needed you around me and you wasn't there, that's why I  
Can only stay with you for so long yeah  
Wish I could've knew we were going wrong

Wait

If there's something we should talk about babe  
Let's just talk, let's not walk round fate  
Don't disrupt me while I'm at peace  
That's how you'd always do me  
Like it was nothing  
To me it was something  
With you it's always something  
What are we doing?  
You know I adored you  
I really restored you  
Did anything for you

I finally see, I wish that I  
Just knew then what I know now  
I know we're stuck and out of luck  
This time I gotta go

I could only stay here for so long yeah  
Love was really what kept me holding on  
Making more problems while we're solving some yeah  
I know I cannot be the only one  
Who needs to know what time alone feels like but loneliness ain  
't there  
I needed you around me and you wasn't there, that's why I  
Can only stay with you for so long yeah  
Wish I could've knew we were going wrong
