

Going Through

S-X

Baby I told you

Baby I told you
Can't keep going through
What's been going on
But you're still holding on
And baby I told you
We can't keep going through
What's been going on
But you're still holding on

Hey, but where are you now
I got the night off and ordered new clothes
I hear you went around the corner, it's a cute no
When I pull up to your spot I get the usual
You know, yeah, it's all for you though
And I wanna go wherever you go
I know the other guys on you would've been too slow
Watch me turn into the ocean with two strokes

And we're up till dawn, yeah
Have you ever made love in the morning light?
Don't look like you don't love it
I know when you're fronting it's all in your eyes
Give you a little more, yeah
I love it when your mum comes, visit me alone baby
You wished that I was yours, yeah
But I can look beyond that

Baby I told you
Can't keep going through
What's been going on
But you're still holding on
Baby I told you
The feeling's way too strong for me
But you're still holding on
I can't be here too long

Hey, I can't fall in love at this time
What you give to making you mine
I got enough troubles inside
And I know you don't need that life
I know that we've been wasting time
And I'm okay with it, it's fine
So let's waste more together, more together

And we're up till dawn, yeah
Have you ever made love in the morning light?
Don't look like you don't love it
I know when you're fronting it's all in your eyes
Give you a little more, yeah
I love it when your mum comes, visit me alone baby
You wished that I was yours, yeah
But I can look beyond that

Baby I told you
Can't keep going through

What's been going on
But you're still holding on
Baby I told you
The feeling's way too strong for me
But you're still holding on
I can't be here too long
