S-X

Ay ay
Mhmm

Baby girl you belong on islands
You know I'd fly u right out
Come see my new hide out
Yeah you gon' see what I'm 'bout
You know you belong on islands
You need a change in climate
You should be where I'm at

And you should bring it to me
You can bring all of your friends you know it ain't nothing to me
We'll spend a couple nights here then we'll hit another country
I put you in Louis and Gucci cause I got it on me
Mmm mhmm
I know you got your own I'll never let you spend it baby
It don't matter where we're at yknow I'll do it daily
Yeah you ain't nothing like them and that's the difference baby
Yeah

That's why baby girl you belong on islands
You know I'd fly u right out
Come see my new hide out
Yeah you gon' see what I'm 'bout
You know you belong on islands
You need a change in climate
You should be where I'm at

Let me show you the wave
Life gets crazy
I know you got issues with trust and now you saying that I'm different
I just know some song will fix the shit you been through that ain't living
You know you need to be miles away
So tell me what do you say
You know that you're done with him bae
You hate when it's one of them days
You're losing the way you know you're running away
You need someone who lets you be you

Baby it ain't no secret
I love it when I'm all up in it
You don't even care about the life, life for you I would leave all my women

Cause baby girl you belong on islands
You know I'd fly u right out
Come see my new hide out
Yeah you gon' see what I'm 'bout
You know you belong on islands
You need a change in climate
You should be where I'm at
