

## Loopholes

S-X

Only you know the truth, don't really who knows  
Who you told isn't usual, the way that you move  
I've been learning through all of your loopholes  
Deep inside your mind, you might not think I am  
If I rewind the times, I was a simp, remember  
You just hide and find yourself, I'm sick in there  
But who am I to judge if you were right, it's your life

I drive at night to find my mind and you were never there  
The diamond ring is shinning bright but you would never wear it  
Ooh, you know why I did it  
You put us through way too much for me to stay committed  
Tell me why you don't listen  
You bring up all the past, it's like you're saving ammunition  
We shoot me down, down with it  
Shoot me down like you usually do  
Yeah, shoot me down, down with it  
Shoot me down like you usually do

Aye, we don't laugh anymore, you stopped caring at all  
I can see you ain't happy  
Aye, you ain't leaving me, though you need peace at the moment  
And I'll give it gladly, yeah  
Because I'm tired too, who am I lying for?  
We ain't building a family (yeah)  
But I'm still in love so it's hard to just stand here  
I don't wanna vanish

I drive at nights to find my mind and you were never there  
The diamonds ring is shinning bright but you would never wear it  
Ooh, you know why I did it  
You put us through way too much for me to stay committed  
Tell me why you don't listen  
You bring up all the past, it's like you're saving ammunition  
We shoot me down, down with it  
Shoot me down like you usually do  
Yeah, shoot me down, down with it  
Shoot me down like you usually do
