

Lot On My Mind

S-X

Yeah

I don't even know why you like me
I know you wanna be wifey
Pull up on you in the night scene
Black Balenciagas white tee
White gold grill so icy
You know there's no one like me
Are you the one you might be?
But I got a lot on my mind right, lot on my mind right
She's thirsty drink Hi C
I did wrong, don't remind me
It somehow always finds me
I put that shit behind me
I'm moving on with high speed
It's way more than just timing
Are you the one you might be?
But I got a lot on my mind right, lot on my mind right (Yeah)

We'd solve it easily
If you could speak to me
You're never leaving me
But you don't believe in me
I didn't mean to cheat
You know what you mean to me
But you know I gotta
'Cause I got a lot on my mind right now
Lot on my mind right now
Lot on my mind right now
Lot on my mind right, ooh
I got a lot on my mind right now
Lot on my mind right now
Lot on my mind right now, ooh
I got a lot on my mind right now (Yeah)
Lot on my mind right now
Lot on my mind right now
Lot on, ooh
I got a lot on my mind right now
Lot on my mind right now
Lot on my mind right now, ooh

There's something lately in the air
This relationship isn't fair
I get the blame like you weren't there
But you never were
It kinda pains me I can't lie
For you and I, I would suffice
But I'm not changing I'm too nice
For you to notice that
And ooh, would you love me?
Love me for who I am
Take my flaws and knight them
But please bring them right back
Ooh and I love you
The things you hate about you
Are what make me love you, oh
Yeah

We'd solve it easily
If you could speak to me
You're never leaving me
But you don't believe in me
I didn't mean to cheat
You know what you mean to me
But you know I gotta
'Cause I got a lot on my mind right now
Lot on my mind right now
Lot on my mind right now
Lot on my mind, ooh
I got a lot on my mind right now
Lot on my mind right now
Lot on my mind right now
Lot on my mind right now
Lot on my mind right now
Lot on my mind right now
Lot on my, ooh
I got a lot on my mind right now
Lot on my mind right now
Lot on my mind right now
Oh yeah, oh yeah
