

## Over You

S-X

I text hi like bitch I'm over you  
I know what I'm supposed to do  
Got pictures of you on my phone, but I ain't exposing you  
I'm still way too close to you  
You didn't do things I hoped to do  
I know I'm better on my own  
But I'm only, but I'm only human so I'm over you

I know what I'm supposed to do  
You can't get me out my zone  
Back then when I'm holding you  
Stories you told all your friends  
Ain't even remotely true  
There's no point in me knowing you  
But I'm only, but I'm only human bitch I'm closing you

You changed your mind  
More than a time  
All of the time  
The issues are yours  
Cannot be mine  
Fine in the day  
Headache at night  
Do this shit right  
Don't text me your feelings, it's not how you're feelin'  
Say you'll be better without any meaning  
Texts, I don't read em, I just delete em  
Yeah

I can't tell you the last thing I felt  
Spending more time working on me  
Fuck no girls to let go of you  
But I can not let go you see  
There's something then you go for me  
You must be what I hold on to  
She hates me that she's wanting me  
But I leave it way too close to  
Can't talk right now gotta get mine  
Although when we're together I know nobody can match us fine  
That's something that we got to know  
I wonder why, why?

You text me like boy I'm over you  
I know what I'm supposed to do  
Got pictures of you on my phone, but I ain't exposing you  
I'm still way too close you  
You didn't do things I hoped you'd do  
I know I'm better on my own  
But I'm only, but I'm only human so I'm over you

I know what I'm supposed to do  
You can't get me out my zone  
Back then when I'm holding you  
Stories you told all your friends  
Ain't even remotely true  
There's no point in me knowing you  
But I'm only, but I'm only human-

We both know this ain't right  
But it feels good for some bad reason  
So we let the night keep flowing  
Now you're telling me you'll keep me  
Despite saying you don't need me, I don't show you affection  
You said I ain't treating you same as the beginning, uh  
So why don't just leave me?  
Cause you're scared of losing what we've built yeah what we've built ain't even  
And I ain't the one to hold it up while this is how you're feelin'  
And that's probably why I called this Reasons  
Cause there's too many meanings that intercept the realism of us keeping each other, yeah

But fuck that can we talk about us?  
And how we just don't give a fuck about our feelings  
So if you're with someone else I'd hate it but you make it feel like it's okay, so free

But now that I am over you  
Don't know what I'm supposed to do  
I hate being on my own  
Wishing I was holding you  
And being so close to you  
We didn't do what we hoped we'd do  
We know we're better on our own  
But we're only, but we're only human now I'm  
Needing you  
I know I should be free of you  
Right now I need you in my zone, yeah  
Me with you  
I am teasing you  
These are the reasons you  
Need me too, and you need me too
