

# Rain Now

S-X

(I make it, I make it)

Yeah

I make it rain now, you make it stay down  
Run it like Rayman, no time to play now  
I remember the long times, now I got no time  
Cause I make it rain now (yeah)  
You make it stay down (ah)

Got the bag in one night  
She just send me nudes I, ain't never gone reply I just can't see why, why people don't talk now  
I ain't gonna flop now, when you rely on me  
Put the pressure all on me (oh)  
And pressure makes diamonds (woo)  
So I'm gonna go find them (yeah)  
Heard you been lying (ha), I just keep smilin'  
Don't feel like dying, don't know who I am  
I just can't find it, till I saw it in writing (wow)

Ok, she blessed me then  
Undress me, never text me  
Or finesse me, I'm the next  
[?] in the lab like I'm Dexter  
Got two hands on, be ambidextrous  
Don't question task, I'm too ambitious  
I need bread  
You have the crumbs and bitches, sort of snitches  
Final wishes, take your pictures  
If you need it, make it worth it  
[?] cut the picture perfect  
That's a sample, no clearance

Done some things I regret in my life  
Never made same mistakes twice, oh no  
Done some things I regret in my life-

But, I make it rain now, you make it stay down  
Run it like Rayman, no time to play now  
I remember the long times, now I got no time  
Cause I make it rain now  
You make it stay down
