

## Realised

S-X

I don't need you at all  
I don't need you at all  
I don't need you, no

Take away your feelings  
After all that's left you told me you're leaving  
I said that you're mad, I don't need respect  
Don't leave me waiting, no  
Don't leave me waiting

I take my time  
To realise why things with us got so complicated

Ever since you left me  
I've been feeling low  
I don't really know no more  
Ever since I met you  
I don't feel at heart  
Need you all the time

I would like to go [?]  
Compromise for you  
But it takes time  
For me to realise for you  
For me to realise for you

Sometimes I take my time with things I don't understand  
And change the ways you make me feel  
Some days it's crazy, baby

You, you said that I don't listen to you  
But you know that you don't listen to me  
When I tell you things that make awe you

Ever since you left me  
I've been feeling low  
I don't really know no more  
Ever since I met you  
I don't feel at heart  
Need you all the time
