

## Time Heals

S-X

I know it's a lonely road  
To get back to usual baby  
I don't wanna be alone  
But I know I won't grow  
If I don't I'll go crazy  
The time we'll spend apart  
Just to fix a broken heart  
It's a long time healing  
Hey hey

They say time heals but it's no better  
I should've really have known better  
Now I'm here in the cold weather  
Baby, you know you so special to me  
I won't forget you  
You wanna leave but I can't let you  
Don't leave it alone ever  
The memories we got so many

Usually I'm alone  
And then I'll start thinking about you  
Hope you don't forget we were so good  
Hate I wasted time with you  
And I don't even wanna go home  
It just reminds me of you yeah  
Don't wanna let this love end nah  
Can't let nobody else in no  
I'll tell the truth  
Its hard letting go of you  
No one do what we do  
It's home when I'm with you  
Other bitches coming through lately  
I'm tryna fill a void from you, baby  
I'm scared to love again is the truth it's crazy

Hey  
They say time heals but it's no better  
I should've really have known better  
Now I'm here in the cold weather  
Baby, you know you so special to me  
I won't forget you  
You wanna leave but I can't let you  
Don't leave it alone ever  
The memories we got so many

They say time heals but it's no better  
Maybe I should've known better  
Now I'm here in the cold weather  
Baby, you know you so special to me  
I won't forget you  
You gotta leave but I can't let you, no  
Don't leave it alone yet  
The memories we got so many  
So many, yeah

But I can't let go of em  
Emotions are real I'm showing em

High as hell every moment  
Faded just to deal with reality  
Going through shit and I'm balancing  
I need you there when things challenge me
