

## Too Soon

S-X

You said your old shit never worked out  
But it's over and you're hurt now  
You deserve more, now let me show you that something, ha (Yeah)

I know that this might sound too soon but I  
Just gotta tell you this one thing, and I

I've been in love too, don't worry  
I know what it's like  
Don't think for one second it's you, girl  
Though I know you might  
Insecurities stay in the dark  
Kings don't show them light  
And I've been in love too, don't worry  
I know what it's like

I know your exes might have been lost  
But they lost you too, and that's their loss  
You need some difference, and let me show you you're worth it (  
Ooh-ooh-ooh)

I know that this might sound too soon but I  
Just gotta tell you this one thing, and I

I've been in love too, don't worry  
I know what it's like  
Don't think for one second it's you, girl  
Though I know you might  
Insecurities stay in the dark  
Kings don't show them light  
And I've been in love too, don't worry  
I know what it's like (Ooh-oh-oh-oh-oh)

I know that this might sound too soon but I  
Just gotta tell you this one thing

I've been in love too, don't worry  
I know what it's like  
Don't think for one second it's you, girl
