

## Tried and Tried

S-X

I tried and I tried  
I'm still holding on  
I hate this road we're on  
Damn it's a lonely one  
Everyone told me  
Time after time  
We were going wrong  
And you know it's true  
What can I do yeah  
Cause I tried and I tried, I'm still

To be honest with you  
There was nothing  
For you I wouldn't do  
But how can this be love  
If I sit here bruised  
I regret putting  
My time into you  
Not tryna confuse you no  
It's time to remove you  
Fuck tryna redo cause

I tried and I tried, I'm still holding on  
With you this road is long  
And it's a lonely one  
Everyone told me  
Time after time  
We were going wrong  
And you know it's true  
What can I do yeah  
Cause I tried and I tried, I'm still

When I think about you  
And me my baby  
It ain't really great  
All I need is somebody  
To come and just  
Take all this pain away  
All the feelings I feel  
And what you feel  
No way it's the same thing no  
I just know that you  
Don't see me for me, it's dead  
The thoughts  
I had I was numbing that  
Back in the past  
Id come running back  
I know this time  
Tho it's just not that  
It's over yeah

Cause I tried and I tried  
I ain't holding on  
For us our road is done  
Now it's a lonely one  
Everyone told me  
Time after time

We were going wrong  
And you know it's true  
What can I do yeah  
Cause I tried and I tried, I'm still
