

# Waste Time

S-X

Yeah

I don't wanna see you waste time  
When I pull up on you late night  
Got some things we need to make right  
Got your heart I'll let you

Girl I could've changed your life  
Changed your life  
You should learn to change your mind  
Change your mind  
If we could do this one more time  
One more time  
Things wouldn't be quite as nice  
We're wasting time

I said I'd text when I landed  
I didn't text when I landed  
You think I just said it and planned it  
You say that I'm just being submissive

Accusations that get me mad when  
That's not even what happened  
Your trust issues think that I am  
But I am

So one is with you  
You gotta let you ego go  
Are you in or out the door  
Now why you acting so unsure  
You was not like this before

You said it's worth it  
You said I'm perfect  
So what we was  
And you take it personal every time  
(Oh yeah)

I don't wanna see you waste time  
When I pull up on you late night  
Got some things we need to make right  
Got your heart I'll let you

Girl I could've changed your life  
Changed your life  
You should learn to change your mind  
Change your mind  
If we could do this one more time  
One more time  
Things wouldn't be quite as nice  
We're wasting time  
(Yeah)

I was so scared of losing you  
Before I even had you  
I don't know how to work with you  
Putting that milage on my car

Cause I drive out when I write  
Think about my dreams at night  
I made a change  
You made it right

You didn't think that what you said  
But you meant everything you said  
Crazy how you learn bout someone  
Unless you get to know them  
Perhaps I'm in the wrong instead  
Or maybe it's all in my head

Thought you were worth it  
Told you you're perfect  
So what we was  
At least one more person of this is in line

I don't wanna see you waste time  
When I pull up on you late night  
Got some things we need to make right  
Got your heart I'll let you

Girl I could've changed your life  
Changed your life  
You should learn to change your mind  
Change your mind  
If we could do this one more time  
One more time  
Things wouldn't be quite as nice  
We're wasting time

Yeah, yeah  
Ooh, ooh
