

Wasting Time

S-X

I see it in your eyes
When we talk
And I'm holding you
Loving you
Woah
I can see what you hide
Right now I can't be wasting time
I can tell a lie
You know I ain't tryna
Let go of
What we got
Baby girl
You should know
I can see
What you don't
And right now I ain't living right
I'm just wasting time

I'm full of emotion
It's hard to let go yeah
But you do the most and
Your words just echo in my head
If I knew it'd be like this
Then I woulda loved it yeah
As we getting closer
It's crazy I feel so away from you
Nothing I say to you gets through no
And I know right now none of us need this
So it makes sense I leave plus
You're defensive with me, it's crazy

I see it in your eyes
When we talk
And I'm holding you
Loving you
Woah
I can see what you hide
Right now I can't be wasting time
I can tell a lie
You know I ain't tryna
Let go of
What we got
Baby girl
You should know
I can see
What you don't
'Cause right now I ain't living right
I'm just wasting time

Broken promises from both of us we tried
And now I'm done looking for answers on why we could just never get it right
Out of consciousness back to the me that I know can find again
Yeah I'm tired from this
I was feeling it daily

And I see it in your eyes
When we talk

And I'm holding you
Loving you
Woah
I can see what you hide
Right now I can't be wasting time
I can tell a lie
You know I ain't tryna
Let go of
What we got
Baby girl
You should know
I can see
What you don't
'Cause right now I ain't living right
I'm just wasting time
