

# Notice Me

S3RL

Notice me, queen

Come (come)  
Come into my dream  
I am everything you need  
I will do, do it all for you  
Hear my siren song call out

Please, queen, notice me  
I'm your only fan, you see  
Whose heart is held so captive by your scream (Oh)  
You thrilled me like a fish  
You grant my every wish  
The melody of your song sounds so sweet

Notice me, queen  
Notice me, queen  
Notice me, queen!

Come into my dream  
Notice me, queen (Oh)  
Everything you need

Come (come)  
Come into my dream  
I am everything you need  
I will do, do it all for you  
Hear my siren song call out

Please, please, please, please, please, queen, notice me  
I'm your only fan, you see  
I'll follow you wherever winds may blow  
You can count on me  
To be there, breathily  
To fight, to watch whatever you may show (Come closer)

Notice me, queen  
Notice me, queen  
Notice me, queen!

Come into my dream  
Notice me, queen (Oh)  
Everything you need

Come, come into my dream  
I am everything you need  
I will do, do it all for you  
Hear my siren song call out
