

I like your old tunes better than the new- (Ha!)

I like your old tunes better than the new
Why did you have to change?
Can't you make the same?
Can't you go back to how you used to do?
The music that we love, music that we want

Can't you go back to how you used to do?
The music that we love, music that we want

I like your old tunes better than the new
Why did you have to change?
Can't you make the same?
Can't you go back to how you used to do?
The music that we love, music that we want

Can't you go back to how you used to do?
The music that we love, music that we want

Try something different, try something new
I think everyone would like that (no, no)

I like your old tunes better than the new
Why did you have to change?
Can't you make the same?
Can't you go back to how you used to do?
The music that we love, music that we want

Can't you go back to
How you used to do?
The music that we love
Music that we want (want, want, want)
