

# Starlight Starbright

S3RL

I wish upon a star take me there

Oh starlight starbright  
First star I see tonight  
I'm dreaming wishing  
I could be out there

Oh starlight starbright  
I wish on that star tonight  
Give me what I need  
Make my dreams come true

Starlight starbright  
First star I see tonight  
Take me on the first flight  
To this place where  
You hear the hard bass  
With the lights, sounds  
And the system that pounds  
They say I'm too young I can't wait  
For this night to come  
Til then I sit in my bedroom  
Bass going boom max volume  
As I listen to this S3RL tune  
I dance in my mind  
With all my energy  
Wishing that my dream  
Becomes a reality

Oh starlight starbright  
First star I see tonight  
I'm dreaming wishing  
I could be out there

Oh starlight starbright  
I wish on that star tonight  
Give me what I need  
Make my dreams come true

Starlight starbright  
First star I see tonight  
Take me back  
To the peak of the night  
To the heat of the fight  
When everything was right  
Had my fresh kicks laced up tight  
Rippin it up on the dance floor  
To the sounds of the rough  
Rugged and raw hardcore  
Doubld dare me  
Trouble care free  
Now it's just a memory  
That I hold close with all my energy

I wish upon a star take me back

Oh starlight starbright

First star I see tonight  
I'm dreaming wishing  
I could be out there

Oh starlight starbright  
I wish on that star tonight  
Give me what I need  
Make my dreams come true
