

Christmas Without You

Saara Aalto

Lonely at home again I'm streaming Home Alone
And waiting for something that would make me smile
Don't wanna get dressed, don't even want to find my phone
Cause life without you just doesn't feel the same

You'd always play all the songs I liked the most
You made me dizzy dancing in the dark
We'd always sing Walking in the Air
Flying through the night like in that fairytale

And you said we'd go and conquer all the world
Climb over the hills and not get hurt
But now my life goes on without you
Again all the lights and Christmas come around
I see our snowman melting on the ground
Cause my life goes on without you

Day after day swiping our photos round and round
It's like you and I are frozen back in time
But now you're the wild wind, you're free like the rain
You're gone and yet I, I see you everywhere

And year after year I still hear you saying
Well who'd want to get older and more grey anyway?
Now every Christmas brings me back those memories
I keep you within, you'll never fade away

And you said we'd go and conquer all the world
Climb over the hills and not get hurt
But now my life goes on without you
Again all the lights and Christmas come around
I see our snowman melting on the ground
Cause my life goes on without you

Cause my life goes on without you
Cause my life goes on without you
Goes on without you

And you said we'd go and conquer all the world
Climb over the hills and not get hurt
But now my life goes on without you
Again all the lights and Christmas come around
I see our snowman melting on the ground
Cause my life goes on without you
Cause my life goes on without you
That Christmas when my life goes on without you
