

Don't Deny Our Love

Saara Aalto

Yesterday I made you laugh
More than you've done in many years
I heard you say, you've been so sad
You thought it was all you can feel

Everything is possible, possible, you and me
Nothing bad will happen oh, happen oh, you will see
Don't try to hide your heart now

You can do whatever you want
But don't deny our love
You can play whatever you want
But not this game of charades

I know you got reasons to be scared
And I admit I'm terrified-fied
You can say whatever you want
But don't deny our love

You come, you go, confusing me
'Cause you're both far and then you're near
But now I know you can't decide
If love is stronger than your fear

You hesitate when holding me, holding me on the street
Don't try to hide your heart now

You can do whatever you want
But don't deny our love
You can play whatever you want
But not this game of charades

I know you got reasons to be scared
And I admit I'm terrified-fied
You can say whatever you want
But don't deny our love

You can say you're afraid
But don't deny our love
If you stay through the night
You can't deny our love
So don't try to hide your heart now

You can do whatever you want
But don't deny our love
You can play whatever you want
But not this game of charades

I know you got reasons to be scared
And I admit I'm terrified-fied
You can say whatever you want
But don't deny our love
Deny love
