

Higher

Saara Aalto

Take my hand
It's time to fly higher

Hear me
Tonight you control me
Tonight we are both free
So let the world go
Call me
The voice of yours holds me
Whisper it softly
This secret is only ours

I am the song you will sing as we're flying higher, higher
You are the sound of my heartbeat, desire, higher, higher
higher we fly
Release the divine in you
And we'll never fall down

Love me
As you've always loved me
Our souls intertwining
Under the northern lights
Lead me
Like a halo you guide me
Eternity's calling, calling

I am the song you will sing as we're flying higher, higher
You are the sound of my heartbeat, desire, higher, higher
This is the night we're one and we're dancing, higher, higher
Higher we fly

You and me, we're higher, higher
Me and you, fly higher, higher
You and me, we're higher, higher
Me and you, fly higher, higher

I am the song you will sing as we're flying higher, higher
You are the sound of my heartbeat, desire, higher, higher
This is the night we're one and we're dancing, higher, higher
Higher we fly

I am the song you will sing as we're flying higher, higher
You are the sound of my heartbeat, desire, higher, higher
This is the night we're one and we're dancing, higher, higher
Higher we fly
