SABA

Ah  
Saved up enough, now it's time to spend some  
Records in my archive, gone spin one  
Say Saba gone head spit some  
Zone in ya eardrum  
Classy like pin-up  
Since the last classic dropped  
It's been a minute  
But there isn't a comparison  
So there is no resemblance  
Enter this my entrance like titantron  
My mind is gone  
If I was you, I'd be alarmed like early morning  
This the part where I go  
Mayhem cause I'm back with a vengeance  
Like revengers  
Payback from a young prince  
Nigga hum this tune on the moon  
Cause even on mute, you hear it  
Lyrics reach out and touch your spirit  
Like a poltergiest  
How I approach the mic  
Yeah it's awfully nice  
How this author writes  
I'm authority so I authorize  
Eye open, Eye closing  
Emoticon, semi colon  
Semi holding fire haulted  
I'm reloading, this my hoalster  
Off the track Locamotive  
They awfully trash Get the chores done  
They have no bars they got lawyers  
This that new kid that's a nuisance  
Took all your fans, boy that boy good  
Encore, clapping nolia  
I'm annoying I'm anointed  
Higher up, my bars are bouyant  
Crept up like a voyeur  
Bon voyage from the PIVOT squad  
Got em all yelling sabotage  
What's the odds that I make it?  
Slim to none so I get it done  
Hit and run, there's another hit  
Like relationship of battered wives  
You keep coming back don't you?  
I make you want to  
You repeat it like old news  
So show me love  
Any problem coming up  
Know we nip it in the bud  
And you gone worry, don't worry bout us  
Tell em everything gravy nigga  
Mashed potato ah  
  
So show me love  
Any problem coming up  
Know we nip it in the bud

And you gone worry, don't worry bout us  
How we coming up  
We'll be on the top soon enough

So show me love  
Any problem coming up  
Know we nip it in the bud  
And you gone worry, don't worry bout us  
How we coming up  
We'll be on the top soon enough
