SABA

You smoking Reggie, that's that shit I don't like  
But how you go your whole life  
Just being content with alright  
You're settling down to low grind  
You smoking Reggie, that's that shit I don't like

While y'all was throwing kickbacks, I was throwing kickstarters  
Like a thug in a party, I get shit started  
Get a track I knock it out the field like I'm Glenn Barker  
Boss dog like Cripwalkers, I lift often  
So the bars must get lost, Saba on the up-and-up  
Cooking like culinary amongst other stuff  
Fuck with us, y'all ain't seeing my like crust  
And I ain't sockin' with proof, Mekhi Phifer in booths  
Pull all-nighters, I'm up in you -itis  
I just hiatus'd and come again like a poo, like a poo  
You 'bout to fall like ottomans, so, I call 'em ottomans  
I'm laid back, my great raps gone change rap, that's all the man  
Status, like go ahead and cast yo' vote  
Too many average living comfortable with Reggie Smoke

You smoking Reggie, that's that shit I don't like  
But how you go your whole life  
Just being content with alright  
You're settling down to low grind  
You smoking Reggie, that's that shit I don't like

While y'all was thinkin' MySpace, I was thinkin' Instagram  
I been a man and that's why listeners is instant fans  
Records 'bout to pop, explode like kicking cans  
They hear me rap and grab the 'saurus, look for synonyms  
Bite me like Bart, bars out the ass  
That's like a fart, simply put: I'm passin' gas  
Got Reginald on a pedestal  
For cheap highs, blink eyes, dreams they selling you  
Lies; cheating wives, this unfaithful shit  
Laker shit, how I play to win  
You grind regular, you know I'm a bro  
Serving like cornico-; I could teach you, I was born a coach  
First class rap and you aren't a coach  
It's only sad that you cool with it  
If they smoke Reggie, I bet you hit it

You smoking Reggie, that's that shit I don't like  
But how you go your whole life  
Just being content with alright  
You're settling down to low grind  
You smoking Reggie, that's that shit I don't like
