

Stop Playing With Me

SABA

Goodness gracious
How could I ever say no?
I was meant for it
You down there washing your car down on the end of the block
Make sure you pick up that bullshit trash you have there, man
Look, I don't have time to deal with it
Didn't bring nothin'
You shouldn't be getting your plate
Now you wanna feed everybody, but you gotta eat...

Stop playing, nigga, you know me
Stop playing with me, you know me
Stop playing, you know me
Why they playing with me?

Aye, I'm only wearing slippers this year
And I'm not leaving the crib, it's a mission out there
I worked hard enough for all of us
Any apparel more than a robe
Feel like more than I'm on

I mean, I spent the last seven touring the globe
With my niggas making differences from tickets that sold
Now the one that everyone want they business involved
'Cause it's real big artists that ain't living that large

Yeah, why they playing with me? You know me
King Pivot, original one and only
Yeah, No ID on the beat, yeah
