SABA

Oh, oh ok we got some Cam O'bi, we got some Vic, alright I can do this, I can do this

And if I die today, my phone will stop ringin'  
Like halloween or [?] how I got demons, they  
Fakin' a fight it is not real, John Cena  
Tell em' I'm the man, little did they know, Vow Venus  
Rap meanest demeanor, fuck a page up my penis [?]  
Picture from pluto, I'm on future shit that you chose  
Kudos you kudos, you little dogs I'm a bigger part  
I'm that unanimously called the best but I'm not bitter dog  
Just better than every single little bit of y'all  
Filled of frost, on that Wendy's city shit  
Dropping classics on some Pac & Biggie Shit  
And my pocket big [?]  
Like Ash Wednesday, rap is in a basement still  
Cadence that kill, savin' a lil', for  
Studio time, my shit sounded like the majors with deals  
On high school, on itunes comparing my shit like yo  
This who y'all like dude?  
Name: N.A. Badu  
With the fam like Caillou, listenin' to Badu  
Killa Cam and [?], watching T-Mac vs. Ivu  
Yo, Poetry in motion how my haiku's movin'  
Fan base universal not just high school students  
Fuck a targetting audience, everybody nod to this shit  
And I'm callin' it quits  
If they tell me that my message lacks enough direction  
I'm the voice of the city that's the fuckin' vessel  
And y'all ain't bleedin enough to be competing' with us  
So who better than me could literally be the leader  
I'm Peter Petrelli, a hero  
Good in the hood like Pelli Pelli, I'm ready to rock  
Like Redman fran, drop shit like confetti  
Drop bodies they deadly  
Go with the flow like Levy, Levi ready, rockin' steady  
Hush little baby don't you cry  
Look, huh  
Mockingbird, y'all gon' learn  
On, top of my game, that's a surfer  
M, Like clockstoppers I'm about to, go  
Uh, I skipped college no honor, roll  
M, that dream changed now I'm on a, roll  
Like arts and crafts, I'ma make it, that's on my, soul  
Like poltergeist I stick out I'm a porcupine  
I'm about to be problematic for any rapper that's trying  
To get money this year and the following  
Huh, standing on my own ground like I'm carpeting  
Car full of 5 and that's followed by 4  
Uh, Travelin'? Nah, nigga D. Pivot Swole  
Send in guard, send in coal  
In denial up in the pose I been denied in the post  
I probably get struck or stuck, in the dough  
That tennis, tennis I been in venice, I been invented  
08' invented [?] Sonic sensus, until I'm senseless  
That's doing numbers I'm all about business all my niggas  
About to eat, devour beat like this shit so delicious!

Doctor Lipschitz, since a rugrat, on the move like hubcap  
When they ask: Where yo buzz at?  
I done came a long way and out a long town  
Uh, I been on the waiting list the long line  
Uh, steady stayin' patient I know it's alright  
Cause we on top we timeless in no time  
Uh, hahaha
