

Been thinking maybe I ain't the player I thought I was  
For the right face I'm a lightweight gotta get my tolerance up

I be tryna catch myself right before I fall  
No luck  
That's why usually I'm super low key I keep shit on the  
Hush  
But I'm asking love  
How I'm posed to not like your pictures on every post girl you bad as fuck  
And them stories got our inside jokes you know damn well that I'm swiping up  
She tryna blow my mind or some

Outside just talking  
Sitting in my ride we hotbox it  
And I'm hypnotized by lil shawty  
Cannot keep my eyes off her body  
I ain't worried bout time when you round me  
When you hit my line the world stops  
She been on my mind on my conscious  
Even with my guard up you got me  
And I fuck wit her vibe cause it's  
Positive  
Obvious  
I fall when you got all of it

I said  
You know just what you doing  
You know just what you doing  
Oh girl you know just what you doing  
You know just what you doing  
I said you know just what you doing  
You know just what you doing  
Oh girl you know just what you doing  
You know just what you doing  
Yeah

Tryna be a soldier  
And keep my composure  
But she got a cobra clutch on me

Every time we get closer  
I can't focus  
You know just what you doing  
You know just what you doing  
Yeah

I think she knows what she doing  
Untied that shit like a loose end  
Follow command yeah like a lieutenant  
I said no to them but you can  
Get me to change my mind your two cents  
I'm bout ready to offer you to move in  
I had to take my plans and move them  
Now the homie like aye bruh who's your new friend

Who said  
You can

Look this good I got shit to do  
I'm bout  
To spend  
Too much  
On shit I could give to you

Missed another appointment  
She said miss me with lil boy shit  
Before the game start like a coin flip  
Can't play both sides like a coy fish

And she not worried bout no old bitch  
I think I'm addicted like the shit opium  
She a movie star I'm bout to get it on film  
She do everything that she intends

I atten-hut  
Lockdown what you in for  
She told me to clear the  
Acting innocent but

Said you know just what you doing  
You know just what you doing  
Oh girl you know just what you doing  
You know just what you doing  
I said you know just what you doing  
You know just what you doing  
Oh girl you know just what you doing  
You know just what you doing  
Yeah

Tryna be a soldier  
And keep my composure  
But she got a cobra clutch on me  
Every time we get closer  
I can't focus  
You know just what you doing  
You know just what you doing  
Yeah
