

Harley From Hell

Sabatón

Feel the wind on the road
Freedom on to whizz it's me
Burning all my gas too fast
Far away from home
Riding on all alone
Leaving everything behind
It's just me, my bike, the road
That is all I need

Now, make a firestart for me
I ride, as I go go go!

On my Harley from Hell!

Felt the wind on the road
Freedom on to whizz I felt
Burned all my gas too fast
Still away from home
Riding still all alone
Left all my woes behind
It's just me, my bike, the road
Everything I need

Now, make a firestart for me
I ride, as I go go go!

On my Harley from Hell!
On my Harley!
Oh, come on, we're gonna kickstart!

Now, make a firestart for me
I ride, as I go go go!

Now, make a firestart for me
I ride, as I go go go!

On my Harley from Hell!
On my Harley!...
