

Metal Machine

Sabatón

I have a phobia
A fear of the dark
Afraid to shoot strangers
The animal talks

Guns scare me shitless
But love gun's my friend

The sentinel's coming
But is this the end

Riding on this crazy train
I'm going paranoid
Watch me lose my mind
And break the law

It's close to midnight and
He's barking at the moon
The kings of metal ride the sky

Is this st. anger
The ultimate sin
Or have I really
A black knight within

The gates of babylon
Are open and wide
Shout at the devil
There's nowhere to hide

Fighting for the world to keep
The wild child in it's cage
Broke my metal heart
Against the wall
