

# The Beast

Sabatón

You can hear the thunder  
Long before the storm  
But you can't hear the lion when he stalks his prey

He's moving like a shadow  
Creeping up on you  
And like a siren's call he's gonna have his way

You'd better run, forget your pride  
Don't make a stand, just step aside  
If you don't have what it takes  
Don't try to play you'll lose your stakes  
Remember this at least

It's the nature of the beast  
It's the nature of the beast

You won't hear a footstep  
Coming up on you  
Moving like a snake he's in complete control  
This killer knows his business  
He is the predator  
You are his only target, you're his only goal

What will you say what will you do?  
Your wildest nightmare's coming true  
There is nothing you can say  
No way to change, he won't delay  
This Cain will have his feast

It's the nature of the beast  
It's the nature of the beast

If you play you're bound to lose  
Don't roll the dice, don't turn the screws  
Just listen to the priest

It's the nature of the beast  
It's the nature of the beast  
It's the nature of the beast  
It's the nature of the beast
