

Bless It

Sabi

Look at you look at you ya blessed
Look at you look at you relaxed
Look at you look at you refreshed
Look at you look at you expressed

Look at you look at you ya blessed
Look at you look at you relaxed
Look at you look at you refreshed
Look at you look at you expressed

Abundance is my natural state
Mind is in a balanced state
Body full an energy
Heart reads in the chakra green
Inhale then I exhale grief
Shifting my realities
Real love is uplifting me
God made no mistakes on me
(God made no mistakes on me)

Instinctively choosing to do what is best
Instinctively choosing to honor my rest
Inner child freely express that joy
Persistent a winner survivor at best
Courageous I deserve respect
Healing I forgive myself
Thriving all my needs are met
Rising and I trust myself

Look at you look at you ya blessed
Look at you look at you relaxed
Look at you look at you refreshed
Look at you look at you expressed

Look at you look at you ya blessed
Look at you look at you relaxed
Look at you look at you refreshed
Look at you look at you expressed

Watch me sing my song
Song of evidence
Words of transcendence for my descendants

Watch me sing my song
Song of evidence
Words of transcendence for my descendants
