

# Champagne

Sabi

I love the feeling  
I'm numb to the ceiling  
We laugh, we dance  
Gonna enjoy this night, I don't care what happens

Raise glasses to the sky  
(Raise glasses to the sky)  
Everybody's feeling right  
(Everybody's feeling right)  
If we never live a lie  
(If we never live a lie)  
We can just pretend tonight

We gon' do the damn thing  
Party like life's a champagne  
We gon' do the damn thing  
Party like life's a champagne, champagne, champagne  
Party like life's a champagne  
We gon' do the damn thing  
Party like life's a champagne

I'm in over my head  
Go on to end this feeling  
I don't care, I need it  
I'm there tonight, we'll never forget

Raise glasses to the sky  
(Raise glasses to the sky)  
Everybody's feeling right  
(Everybody's feeling right)  
If we never live a lie  
(If we never live a lie)  
We can just pretend tonight

We gon' do the damn thing  
Party like life's a champagne  
We gon' do the damn thing  
Party like life's a champagne, champagne, champagne  
Party like life's a champagne  
We gon' do the damn thing  
Party like life's a champagne

Put your hands up when you get to the sky, sky  
Live your life like you'll never gonna die  
Put your hands up when you get to the sky, sky  
Live your life like you'll never gonna die

We gon' do a damn thing  
Party like life's a champagne  
We gon' do the damn thing  
Party like life's a champagne, champagne, champagne  
Party like life's for champagne  
We gon' do the damn thing  
Party like life's a champagne
