

We forgotten how to feel baby
And I think the world has gone crazy
What about the drama seen on TV
I been trying but I can not find peace
Where is the love
We all just lust
How come nobody loves

Shopping til my pockets empty
But the void I swear is so deep
Will never find the light baby
Cause I swear right now I can't see
Where is the love
Were all so numb
How come nobody loves

Wanna ride and slide the waves of love
It's alright to try just know that
You can't deny the right to take that flight
Baby love is always free

Wanna ride and slide the waves of love
It's alright to try just know that
You can't deny the right to take that flight
Baby love is always free

Where does the love go
Where does the love go
Where does the love go
