

Take It Back Kindly

Sabi

Take it back kindly
Take it back kindly
Pick it up wind it
This love is blinding
Whoa ooo whoa waaaaah
You know just where to find me
Tell me the right things
You're so inviting

Give me body need extra this energy it connect us
Every time you caress my lips I move my hips to perfection
Be my protection
Give me direction
We're reaching the exit
You're my reflection

Yeahhhhh
Woahhh

Take it back kindly
Do those things that remind me
Take it back kindly
Our bodies synced while we're vibing

Take it back kindly
Pick it up wind it
This love is blinding
Whoa ooo whoa waaaaah

You know just where to find me
Tell me the right things
You're so inviting
Whoa ooo whoa waaaaah

Stars aligning perfect timing
Under the moonlight diamonds shining
If your heart is searching you gone find me
I might just put up ah fight hope you came to dance tonight

Yeahhhhh

Do those things that remind me
Take it back kindly
Our bodies synced while we're vibing

Take it back kindly
Pick it up wind it
This love is blinding
Whoa ooo whoa waaaaah

You know just where to find me
Tell me the right things
You're so inviting

Take it back kindly

Our bodies synced while we're vibing
