

Blow My Mind

Sabina Ddumba

Zagadat

It's your boy, Eazi

Never been the type to fall in love blind
Boy, you really blow my mind
Yeah, you really blow my mind
Do it everyday, love me every night
Baby, you another kind
Yeah, you really blow my mind

Never have I felt this way for another
Someone to from another
Such a rush, boy, you taking all my time

Baby, it blows my mind
The way you do what you do
Almost too good to be true
My God, I'm so into you
Baby, it blows my mind
So much, I got no words to say
You got that special thing about you
That blows me away, away

Your hands around my waist
The way you make my body shake
While the birds moving in time
Looking into each others eyes
Then you go step by step
Taking away my breath
This is more than just a sign
Boy, you really blow my mind

Never have I felt this way for another
Someone to from another
Such a rush, but you're taking all my time
I know that this is not an illusion
With you, I see my future
Can't be wrong, baby, if it feels this right

Baby, it blows my mind
The way you do what you do
Almost too good to be true
My God, I'm so into you
Baby, it blows my mind
So much, I got no words to say
You got that special thing about you
That blows me away, away

(Away away, away away, away away, away)

You blow my mind

(Away away, away away, away away, away)

You got that special thing about you that blows me away

Hey girl, your love, nah, can't stand
Me no want one time, me want forever (Zagadat)
Hey girl, your vast, Medula
My heart freeze one time

So fast, Medusa (Listen)
My friends say it's a lie
That's a one lie for you could love me
They say I'm out of my mind
To believe everything that you got
Baby, make a tell you one more time (Away, away)
If you only here to bust my mind (Away, away)
Baby, make a tell you one last time (Away, away)
Sick of you having bust my night, bust my night (Away)

Baby, it blows my mind
The way you do what you do
Almost too good to be true
My God, I'm so into you
Baby, it blows my mind
So much, I got no words to say
You got that special thing about you
That blows me away, away (Let's go, away, away)
Baby, it blows my mind
The way you do what you do
Almost too good to be true
My God, I'm so into you (Baby)
Baby, it blows my mind (Blows my mind)
So much, I got no words to say
You got that special thing about you
That blows me away, away (Blows ya)
