

## Cloud 9

Sabina Ddumba

If you're down, down  
(I want to talk to you)  
Then I'm down, down  
If you got a minute  
I got a bed with me in it

So tell me if you're still up  
Could we make it just us  
Baby, you got me thinking  
Thinking this could be something different

Just the way you're talking magic with your eyes  
(I love it when you're talking about us)  
Not a funny sentimental bug tonight

I don't wanna let go, yeah  
See I just wanna lecture, yeah  
Baby, I love the way your make me feel  
You know this energy is so unreal  
I don't wanna let go, yeah  
See I just wanna lecture, yeah  
Baby, I love the way your make me high  
Making me feel I be on Cloud 9

It's a head rush  
With only one touch  
My knees keep on giving  
And the whole room keeps on spinning

It's the way you're talking magic with your eyes  
(I love it when you're talking about us)  
Not a funny sentimental bug tonight

I don't wanna let go, yeah  
See I just wanna lecture, yeah  
Baby, I love the way your make me feel  
You know this energy is so unreal  
I don't wanna let go, yeah  
See I just wanna lecture, yeah  
Baby, I love the way your make me high  
Making me feel like I be on Cloud 9

To be mine, be mine, be mine, be mine, be mine  
Very nah nah nah nah nah nah nah nah nay  
To be mine, be mine, be mine, be mine, be mine  
Very nah nah nah nah nah nah nah nah nay

Baby, won't you look at how you got me  
Walking on it like I'm out of body  
Tell me, baby, that you want me only  
Cuz you got me, you got me  
Baby, won't you look at how you got me  
Walking on it like I'm out of body  
Tell me, baby, that you want me only  
Cuz you got me, you got me  
Baby, won't you look at how you got me  
Walking on it like I'm out of body

Tell me, baby, that you want me only  
Cuz you got me, you got me  
Baby, won't you look at how you got me  
Walking on it like I'm out of body  
Tell me, baby, that you want me only  
Cuz you got me, you got me  
Baby, won't you look at how you got me  
Walking on it like I'm out of body  
Tell me, baby, that you want me only  
Cuz you got me, you got me  
Baby, won't you look at how you got me  
Walking on it like I'm out of body  
Tell me, baby, that you want me only  
Cuz you got me, you got me
