

Ride Pt. 2

Sabina Ddumba

Better than what I could've dreamt
(Better than what I)
Something inside my head
(Inside my head)
I can see us in a violet sky
Lesson [?] your eye
I can see us basking in the light
See us being you and I
I can see us on a beach getting high
See your body on mine
I can see us in a silver light
See us in satellite
You and the world and the night
You and I
