

# Ride

Sabina Ddumba

1... 2... 3...

Baby pack a bag  
I wanna go somewhere with you  
Somewhere we can relax  
Where we can dive into the blue

I know we're feeling tired  
Take what you need and leave the rest  
Let's go find some peace of mind  
We're letting go of our regret  
So if you're down, I'll pick you up

Jumpin' jumpin', let's go somewhere far away  
Jumpin' jumpin', we could use a holiday  
Jumpin' jumpin', I know where we can go  
If you just let me show

Let me take you places that you never been  
A whole new world you've never seen before  
Where the skies are blue and trees are evergreen  
I know it's beautiful, baby, there's so much more

I wanna ride, ride, ride with you  
I just wanna ride, ride, ride with you  
Travel through time and space with you  
Baby, come rain or shine, I wanna spend all my time with you

Down the boulevard, let's take the highway by the sea  
Ooh, in our fancy car creating countless memories  
If you're still down I'll pick you up

Jumpin' jumpin', let's go somewhere far away  
Jumpin' jumpin', we could use a holiday  
Jumpin' jumpin', I know where we can go  
If you just let me show

Let me take you places that you never been  
A whole new world you've never seen before  
Where the skies are blue and trees are evergreen  
I know it's beautiful, baby, there's so much more

I wanna ride, ride, ride with you  
I just wanna ride, ride, ride with you  
Travel through time and space with you  
Baby, come rain or shine, I wanna spend all my time with you

Baby, baby, baby  
Why won't you call me  
There's so much out there  
And I don't wanna stay here  
Don't think you're ready  
Won't you be my company  
So I can take you right there

I wanna ride, ride, ride with you  
Travel through time and space with you

Baby, come rain or shine

I wanna ride, ride, ride with you

I just wanna ride, ride, ride with you

Travel through time and space with you

Baby, come rain or shine, I wanna spend all my time

Come rain or shine, I wanna spend all my time

Come rain or shine, I wanna spend all my time with you
