

# Scarred For Life

Sabina Ddumba

I've done, everything we've talked about  
I try, they don't wanna give it up (give it up)  
I thought, you really got it right this time  
So wrong, they don't wanna give it up (give it up)  
Give it up

It almost felt alive again, now this struggle long and vain  
Made up, made up  
You made it up  
I believed in every lie 'bout a love that never dies  
Made up, made up  
You made it up

Cuts are getting deeper  
You really fucked me up this time  
I just can't stop bleeding  
Baby I am scarred for life

Was it worth it, did it do you any good  
Was she worth it, did she do you good, good

Every night I had to wait, telling me you're working late  
Made up, made up  
You made it up  
I remember what you said and it echoes in my head  
Made up, made up  
You made it up

Cuts are getting deeper  
You really fucked me up this time  
I just can't stop bleeding  
Baby I am scarred for life

I will never try again, can't survive another end  
(I will never try again)  
Give up, give up  
I give it up  
We build us up a hundred times, you really tore it down tonight  
(You really tore it down tonight)  
Break up, break up  
I'm breaking up

Cuts are getting deeper  
You really fucked me up this time  
I just can't stop bleeding  
Baby I am scarred for life

Cuts are getting deeper  
You really fucked me up this time  
I just can't stop bleeding  
Baby I am scarred for life  
Baby I am scarred for life
