

# Hold Tight

Sabrina Carpenter

Aye, done everything and done it again  
Not every party needs our attendance

Don't take this as complaining  
Just little rearrangements  
All the nights that we've been taking  
Maybe we could take one off

Could be in the canyons, probably in a mansion  
But I like where my hands is, I just wanna hold tight  
Always gotta go out, we don't ever slow down  
Not like we don't know how, I just wanna hold tight  
Ah (I just wanna, I just wanna hold tight)  
Always gotta go out, we don't ever slow down  
Not like we don't know how, I just wanna hold tight

Not like I wanna keep you inside, yeah  
But I was hoping we could switch up how we're spending our time

Don't take this as complaining  
Just little rearrangements  
All the nights that we've been taking  
Maybe we could take one off

Could be in the canyons, probably in a mansion  
But I like where my hands is, I just wanna hold tight  
Always gotta go out, we don't ever slow down  
Not like we don't know how, I just wanna hold tight  
Ah (I just wanna, I just wanna hold tight)  
Always gotta go out, we don't ever slow down  
Not like we don't know how, I just wanna hold tight

I just want that hand hold, with the sweat in the middle  
Running down to when I feel alone and the feeling gone you can touch it a little  
Hear me underneath the covers, coloring your body, reading Braille  
Take you to Bahamas, seeping through the sand  
Sucking out the silence, now I'm in your ear  
Telling you baby to listen, I just

Wanna keep you in, wanna keep you in, right  
Wanna feel your skin, wanna feel it on mine  
Maybe I been on the Internet forgetting how to keep it slow  
But no I need it bitty bad bone Bonnie Clyde, come and get it  
I don't know I get it, get it, I get it oh

Could be in the canyons, probably in a mansion  
But I like where my hands is, I just wanna hold tight  
Always gotta go out, we don't ever slow down  
Not like we don't know how, I just wanna hold tight  
Ah we keep going, keep going  
(I just wanna, I just wanna hold tight)  
Always gotta go out (oh gotta go out), we don't ever slow down  
Not like we don't know how, I just wanna hold tight
