

On Purpose

Sabrina Carpenter

Your eyes
Crashin' into my eyes
Was I accidentally falling in love
Your words
Didn't mean to hear but heard
Were coincidentally more than enough

All these days I never thought
That I would need someone so much
Who knew?
But I don't think I ever planned
For this helpless circumstance
With you

You're scared, I'm nervous
But I guess that we did it on purpose, on purpose, on purpose
Baby, I know it's weird, but it's worth it
Cause I guess that we did it on purpose, on purpose, on purpose
But I guess that we did it on purpose
But I guess that we did it on purpose

My dreams running into your dreams
It's as if we wished on the same star
And my time changing all of your time
It's a butterfly effect on my heart

All these days I never thought
That I would need someone so much
Who knew?
But I don't think I ever planned
For this helpless circumstance
With you
Oh, woah

You're scared, I'm nervous
But I guess that we did it on purpose, on purpose, on purpose
Baby, I know it's weird, but it's worth it
But I guess that we did it on purpose, on purpose, on purpose
But I guess that we did it on purpose
But I guess that we did it on purpose

Lost in darkness
You're my focus
Love me hopeless
But I guess that we did it on purpose
Lost in darkness
You're my focus
Love me hopeless
Oh, you're scared

You're scared, I'm nervous
But I guess that we did it on purpose, on purpose, on purpose
Baby, I know it's weird, but it's worth it
Cause I guess that we did it on purpose, on purpose, on purpose
But I guess that we did it on purpose
But I guess that we did it on purpose

Lost in darkness
You're my focus
Love me hopeless
But I guess that we did it on purpose
Lost in darkness
You're my focus
Love me hopeless
But I guess that we did it on purpose
