On Purpose

Sabrina Carpenter

Your eyes Crashin' into my eyes Was I accidentally falling in love Your words Didn't mean to hear but heard Were coincidentally more than enough

All these days I never thought That I would need someone so much Who knew? But I don't think I ever planned For this helpless circumstance With you

You're scared, I'm nervous But I guess that we did it on purpose, on purpose, on purpose Baby, I know it's weird, but it's worth it Cause I guess that we did it on purpose, on purpose, on purpose But I guess that we did it on purpose But I guess that we did it on purpose

My dreams running into your dreams It's as if we wished on the same star And my time changing all of your time It's a butterfly effect on my heart

All these days I never thought That I would need someone so much Who knew? But I don't think I ever planned For this helpless circumstance With you Oh, woah

You're scared, I'm nervous But I guess that we did it on purpose, on purpose, on purpose Baby, I know it's weird, but it's worth it But I guess that we did it on purpose, on purpose, on purpose But I guess that we did it on purpose But I guess that we did it on purpose

Lost in darkness You're my focus Love me hopeless But I guess that we did it on purpose Lost in darkness You're my focus Love me hopeless Oh, you're scared

You're scared, I'm nervous But I guess that we did it on purpose, on purpose, on purpose Baby, I know it's weird, but it's worth it Cause I guess that we did it on purpose, on purpose, on purpose But I guess that we did it on purpose But I guess that we did it on purpose Lost in darkness You're my focus Love me hopeless But I guess that we did it on purpose Lost in darkness You're my focus Love me hopeless But I guess that we did it on purpose
