

## Me in Her

Sabrina Claudio

She even has my curl pattern  
And her world lives in her hazel eyes  
Was it by mistake  
That you found someone whose body favors most of mine?  
But I bet she doesn't know how much you need your pillow talk  
'Cause I bet she doesn't like when you become too emotional

She has (She has) it all (It all)  
But all she's missing is a piece of my heart  
I've had (I've had) it all (It all)  
No matter what, you'll never find me in her

She even has her life set up  
And her mind is where it's supposed to be  
Was it by mistake  
That you found someone who sees her future just like me?  
But I bet she can't imagine spending her whole life with you  
And damn, I wish you would at least pretend  
That you don't want her too

She has (She has) it all (It all)  
But all she's missing is a piece of my heart  
I've had (I've had) it all (It all)  
No matter what, you'll never find me in her
