

Wanna Know

Sabrina Claudio

I wanna know if you care for me
If you feel my touch as heavenly
I wanna know if you feel this too
If you don't I can't be in love with you

A million miles
Between you and I
I wanna know if you feel it too
If you don't I can't be in love with you

I wanna know
When you look at me
Do the voice of angels start to sing?
I wanna know if you hear them too
If you don't I can't be in love with you

A million nights
I've lived this quiet
I need to know if you hear this too
If you don't I can't be in love with you

A million times
I keep on trying
I'm gonna know if you love me too
If you don't I can't be in love with you
