

Winter Time

Sabrina Claudio

December first, cold is in the air
Haven't worn this jacket, in 'bout a year
But it still fits fine
It's winter time

Kids are building, the forts outside
And my neighbor's one, is like ten feet high
Having snowball fights
It's winter time

And I love this feeling
That winter time gives me

Frozen skies over Harlem nights
Chilly nights, let me hold you tight
Keep you warm and near, now that winter's here
Sleep all day and we play all night
There's a storm out there
I would rather die than to leave your side
Love me through winter times

And I love this feeling
That winter time gives me
Yeah, I love this feeling
That winter time brings me

And I love this feeling
That winter time gives me
Yeah, I love this feeling
That winter time brings me

And I love this feeling
That winter time gives me
Yeah, I love this feeling
That winter time brings me
